100 JAHRE 1919 2019

Mineral dust may cause cancer!

Hazardous dust (e. g. silica dust) has to be suctioned by a Dust Class M Vacuum Cleaner! For our electric power tools we are recommending to use a Vacuum Cleaner of our Eibenstock DSS range!

DRY CORE DRILL

**EHD 1500 – Innovation in design and technology
ideal for socket sinking in the installation business up to Ø 82 mm**

NEW Powerful with improved ergonomics The handy diamond dry core drilling machine

Ø 82

Specifications	EHD 1500
Power input	1500 W
Rated voltage	230 V ~
Rated speed	0-2000 rpm
No-load speed	3700 rpm
Drilling diameter	32-82 mm
Collar diameter	46 mm
Spindle connection	M 18 male
Weight	3.9 kg
Order no. EHD 1500	03E11000 (in a case without accessories)
Order no. EHD 1500 Set	03E13000 (in a case with accessories)

USE:

- Dry drilling up to Ø 82 mm in sand-lime brick, brickwork, clinker, brick and other abrasive materials
- For electrical installation work – socket sinking, e.g. switches and sockets

FEATURES:

- Motor – powerful, durable
- Electronic – soft start, temperature control and over current cut-off, overload indication

- Metal gearbox with long service life
- Mechanical safety clutch
- Lock-on button with protection against accidental fixing
- Low weight
- PUR-construction site cable – strong for heavy duty use

- Ergonomic handle and large-dimensional switch button – good control and effortless working
- Additional handle – variable adjustment on the collar

EHD 1500 Set incl. dust extraction H, drill bit for socket outlets Ø 82 mm and centering shaft
